

PROGRAMME

Physiological CTG Master Class

Part 1 Deeper understanding of fetal physiological responses

- 15:00 - 15:50 Fetal physiological responses to hypoxic stress: Let's get our bearings right!
- 15:50 - 16:00 Q & A session / short break
- 16:00 - 16:50 Evolving intrapartum hypoxia: Illustrative case discussion
- 16:50 - 17:00 Q & A session / short break
- 17:00 - 17:50 CTG interpretation during second stage of labour
- 17:50 - 18:00 Q & A session
- 18:00 - 18:30 Case discussion / Q & A session and close

Part 2 Deeper understanding of the "wider clinical picture"

- 09:00 - 09:50 How to use the CTG in meconium & chorioamnionitis
- 09:50 - 10:00 Q & A session / short break
- 10:00 - 10:50 Non-hypoxic causes of fetal compromise: what does the CTG show?
- 10:50 - 11:00 Q & A session / short break
- 11:00 - 11:50 Illustrative Interactive Case Discussion
- 11:50 - 12:00 Q & A session
- 12:00 - 12:30 Case discussion, Q & A and close
