

Preliminary Program Basic CTG Masterclass

Day 1 Understanding Fetal Physiological Responses		
Time CET	Session topic	Speaker
14:45	Registration	
15:00	Welcome	Anneke Kwee & Petra Bakker
15:05	Understanding the limitations of current CTG Guidelines	Edwin Chandraharan
15:50	Break – Q & A Session	
16:00	Paradigm shift from ‘Pattern Recognition’ to understanding fetal physiological responses to intrapartum hypoxic and mechanical stress.	Edwin Chandraharan
16:50	Break – Q & A Session	
17:00	How does a fetus protect his/her brain and the heart from hypoxic insults? Understanding the CTG features suggestive of fetal compensation and decompensation: Illustrative Case Discussion	Edwin Chandraharan
18:00 - 18:30	Q & A session & Close	Edwin Chandraharan

Day 2 Types of Intrapartum Hypoxia and Case Discussion		
Time CET	Session topic	Speaker
08:45	Registration	
09:00	CTG Patterns in Types of Hypoxia in Labour	Edwin Chandraharan
09:50	Break – Q & A Session	
10:00	Unusual Fetal Heart Rate Patterns	Edwin Chandraharan
10:50	Break – Q & A Session	
11:00	Illustrative Interactive Case Discussion	Edwin Chandraharan
12:00 - 12:30	Q & A session & Close	Edwin Chandraharan
