

Day I

Understanding the principles of using Fetal ECG (ST Analysis) as an adjunct to CTG

Time	Session topic	Speaker
15:00	Welcome	Ellen Rhoets
15:05	Understanding Fetal Physiological Responses to intrapartum hypoxic stress	Edwin Chandraharan
15:50	Discussion	
16:00	Understanding the Physiological Principles of fetal ECG (STAN)	Edwin Chandraharan
16:50	Discussion	
17:00	Tea/Coffee Break	
17:10	How to use STAN in real life: Interactive Case Discussion	Edwin Chandraharan
18:10	Questions & Answers	
18:30	Discussion and Close	Faculty

Day 2

Deeper understanding of the use of fetal ECG (ST Analysis) : Pearls & Pitfalls

Time	Session topic	Speaker
09:00	Re-cap: Types & Magnitudes of STAN Events: Clinical Application	Edwin Chandraharan
09:30	When NOT to use STAN : Chronic Hypoxia, Chorioamnionitis & Loss of Cycling	Edwin Chandraharan
10:20	Discussion	
10:30	Tea/Coffee Break	
10:40	Interactive Case Discussion on the use of STAN	Edwin Chandraharan
11:10	Current Scientific Evidence of the Use of STAN	Edwin Chandraharan
11:30	STAN: Where have we gone wrong in the past? Learning from cases from published literature	
12:10	Discussion / Q & A	Faculty
12:30	Close
