

Preliminary Program

CTG Masterclass: Non-Hypoxic Causes of Fetal Compromise
26-27 Oct 2020

Day 1 CTG Features in Inflammation & Infections		
Time	Session topic	Speaker
15:00	Understanding Fetal Physiological Responses to intrapartum hypoxic stress	Edwin Chandraharan
15:50	Discussion	
16:00	Understanding the Pathophysiology of fetal inflammation & chorioamnionitis	Edwin Chandraharan
16:50	Discussion	
17:00	Tea/Coffee Break	
17:10	Interactive Review of Cases: Chorioamnionitis & Maternal COVID-19 Infection	Edwin Chandraharan
18:10	Questions & Answers	
18:30	Discussion and Close	Faculty

Day 2 CTG Changes in non-hypoxic & non-inflammatory insults		
Time	Session topic	Speaker
09:00	CTG Changes in Chronic Fetal Anaemia and Acute Feto-maternal Haemorrhage	Edwin Chandraharan
09:50	Discussion	
10:00	CTG Changes in Cardiac Electrical Disorders, Fetal Cardiomyopathies & Prematurity	Edwin Chandraharan
10:45	Tea/Coffee	
10:55	CTG Changes in Intrauterine Fetal Stroke & CNS disorders	Edwin Chandraharan
11:15	Mechanical Stimulation: What are the “abnormal” CTG changes, which are “normally expected” during operative vaginal births?	Edwin Chandraharan
11:30	Interactive Review of Cases	
12:10	Discussion / Q & A	Faculty
12:30	Close
