

Preliminary Program

CTG Masterclass: Non-Hypoxic Causes of Fetal Compromise
7-8 Dec 2020

Day 1 CTG Features in Inflammation & Infections		
Time	Session topic	Speaker
14:55 – 15:00	Registration	
15:00 – 15:50	Understanding Fetal Physiological Responses to intrapartum hypoxic stress	Edwin Chandraharan
15:50 – 16:00	Break – Q & A Session	
16:00 – 16:50	Understanding the Pathophysiology of fetal inflammation & chorioamnionitis	Edwin Chandraharan
16:50 – 17:00	Break – Q & A Session	
17:00 – 18:00	Interactive Review of Cases: Chorioamnionitis & Maternal COVID-19 Infection	Edwin Chandraharan
18:00 – 18:30	Case Discussion / Q & A and Close	Faculty

Day 2 CTG Changes in non-hypoxic & non-inflammatory insults		
Time	Session topic	Speaker
08:55 – 09:00	Registration	
09:00 – 09:50	CTG Changes in Chronic Fetal Anaemia and Acute Feto-maternal Haemorrhage	Edwin Chandraharan
09:50 – 10:00	Break – Q & A Session	
10:00 – 10:50	CTG Changes in Cardiac Electrical Disorders, Fetal Cardiomyopathies & Prematurity	Edwin Chandraharan
10:50 – 11:00	Break – Q & A Session	
11:00 – 11:15	CTG Changes in Intrauterine Fetal Stroke & CNS disorders	Edwin Chandraharan
11:15 – 11:30	Mechanical Stimulation: What are the “abnormal” CTG changes, which are “normally expected” during operative vaginal births?	Edwin Chandraharan
11:30 – 12:10	Interactive Review of Cases	
12:10 – 12:30	Case Discussion / Q & A and Close	Faculty
